BIO:

Piotr Plichta, Ph. D. Associate professor in the Institute of Pedagogy of the University of Wrocław, special educator. Author and co-author of about 80 scientific papers. A member and leader of research teams in both, Polish and international grants. A member of international scientific networks (Management Committee in COST IS 0801 “Cyberbullying: coping with negative and enhancing positive uses of new technologies, in relationships in educational settings” and COST IS 1210 “Appearance Matters: Tackling the physical and psychosocial consequences of dissatisfaction with appearance”). The field of academic expertise includes among others:

- Cyberbullying among children and teenagers;
- The use of ICT by students with special educational needs and disabilities;
- The involvement of students with special educational needs in bullying, both in the traditional sense, and cyberbullying (especially in the victimization aspect) and other risk behaviours.
