

Work Group Lead- Collaboration meeting

Date: 9th October 2018

Attending:

WG2 Lead - Ornella Corazza (OC)

Action Chair – Naomi Fineberg (NF)

STSM Coordinator – Giovanni Martinotti (GM)

GHM/AR and WG2 Member - Natalie Hall (NH)

Apologies: Erika Melonashi, Francisco Machado, Marta Torrens, Magin Farre, Zsolt Demetrovics (ZD), Konstantinos Ioannidis

Objectives: To finalise the agenda and aims for the WG2 Workshop.

The objective for the workshop is to develop an online master class. NH has printed a list of questions that we would like the members to answer. This will be distributed to members who attend the workshop.

OC would like filming to begin early next year. NH already has a webinar set up, so the filming can run alongside this. NF suggest that this be carried out in the UK, where we already have the webinar equipment in place.

GM, OC, NF agree that the lectures should be filmed, and edited to create a professional course, that maybe linked with a training school which ZD is proposing in the next grant period.

Accreditation is an important aspect but will probably take more time to arrange. Members will be asked if there are specific accreditations that are required for their country.

OC would like to look in to the possibility of the modules being linked with modules across other universities, and with publications that are due to be started by Henrietta Bowden-Jones.

GM Suggested involving Case studies. It may be possible to explore this option through treatment centres.

Who do we want to target?

Public health, Psychologists, Psychiatrists, Social workers, MD etc. Early career researchers.

Can we find 4-5 people who can and are willing to tell their story, Not patients as this will bring up ethical issues.

Possible Speaker to approach:

Naomi Fineberg

Ornella Corazza

Giovanni Martinotti

Henrietta Bowden-Jones

Zsolt Demetrovics

Konstantinos Ioannidis

Bernardo Dell Osso

Joseph Zohar

Valerie Voon

Workshop date: 11th Oct 2018, Barcelona, Spain
